### Unit pricing

The Trust's NAV and the bid and offer price of its units are re-calculated as at the date of the quarterly revaluation of the portfolio. Income is not included in this re-calculation.

### Distributions

Distributions of income are made quarterly and paid at the end of the month following the end of each calendar quarter.

### Minimum investment/disinvestment

A minimum initial investment of £100,000, although the Manager may approve smaller holdings.

### Creation, transfer and realisation of units

Units may be issued on the direction of the Manager usually at the end of each quarter but no more frequently than monthly. Income accrues to units from the date of issue. Units may be redeemed on written notice to be received by the Manager at least one month before the last day of a calendar quarter. Proceeds are then paid on the subsequent quarter end day at the then prevailing bid price and income accrues to the date of payment. In certain circumstances, the Manger may postpone redemptions.

Once a redemption notice is served it may not be withdrawn without the Managers approval. The Manager may also require redeeming unitholders to transfer their units at the then prevailing bid price. Units can be transferred at any time to an eligible investor.

### Taxation

The following is a summary of current law and practice and is subject to change. The information should not be regarded as legal or tax advice.

### Income Tax

While distributions of income are made gross on a quarterly basis to all holders who are UK residents or those who hold non –resident Landlord clearance. 20% Jersey tax is withheld from distributions payable to Jersey residents. Income (less expenses property incurred) arising directly from the properties whether it is distributed or not, will be liable under Schedule A to UK income or corporation tax in the hands of unit holders, regardless of where they are resident.

### Stamp duty reserve tax

The trust's registration in Jersey means that the redemption and issue of units does not attract SDRT.
