Net asset value

The Fund's net asset value is re-calculated monthly, on the last day of the month. Income (which is distributed quarterly) is excluded from the calculation. The manager calculates the difference between the nominal value and the market value of the Trust's debt, but this is not reflected in the monthly re-calculation of its Net Asset Value. Performance fees are accrued and are therefore reflected in the quarterly re-calculation of the Fund's net asset value.

Distributions

Distributions are declared on a quarterly basis. The record dates for distributions are the quarterly revaluation dates. Distributions are made within 20 business days of the record date, except for the final distribution in respect of each year, which is paid within four months of the end of the relevant period

Minimum investment/disinvestment

The minimum holding is GBP250,000.

Creation, transfer and realisation of units

As from 31 December 2015 the Trustees at the direction of the Manager will have the ability to issue new units in the Fund subject to a maximum of 10% per annum of the number of Units in issue at the start of each accounting period, to purchase qualifying property and for capital expenditure on assets.

Trades can take place via matched bargains, provided they meet investor criteria and minimum holding tests.

Taxation

Capital Gains Tax

Since it is registered in Jersey, the Fund is not subject to UK capital gains tax. Those investors who are subject to tax may be liable to capital gains tax on the redemption or sale of their units in the Fund.

Income Tax

While distributions of income are made net of income tax, non-taxpayers are entitled to reclaim any tax deducted at source and receive tax vouchers for this purpose.

Stamp duty reserve tax

The fund's registration in Jersey means that the surrender and issue of units does not attract SDRT.

Charges

Annual fees

The trustees receive an annual fee, which is payable in arrears, of 0.05% on the first GBP100m of net asset value, 0.04% on the next GBP100m and 0.03% thereafter.

The Manager's fees will be calculated based upon the Net Asset Value of the Fund at a rate of 0.70% per annum.

Performance fees

The Manager is entitled to 20% of the out-performance above the benchmark plus 1% calculated on a rolling 3 year period save for in the final accounting period when the calculation is over a 2 year period.

Performance fees are accrued and are therefore reflected in the quarterly recalculation of the Fund's net asset value.
