Keills Property Trust

INVESTMENT POLICY AND OBJECTIVES

To invest in RPI Property. Keills define this as UK real estate let to high quality tenants where the rent is contracted to increase in line with RPI, CPI or is subject to fixed increases. Our stock selection process tries to ensure that the selected property is the natural home of the tenant and so we seek sustainable locations.

There is no specific sector allocation requirement and the fund is benchmarked to the MSCI Quarterly Universe. Keills believes that market rental growth will be minimal over the next 10 years.

INVESTOR CONSTITUENCY

The Trust is open to investment by UK pension funds including SIPP's.

Unit pricing

The price of the units is calculated quarterly. New investment may be made by suitable investors at any time. Investment is made at the offer price which is available for the calendar quarter and requires confirmation that the investor is exempt from capital gains tax by HMRC. Redemptions require written notice of two full quarters and are transacted at the bid price calculated at the end of that quarter following the end of the notice period. The manager reserves the right to delay redemptions due to liquidity reasons or adverse market conditions.

Distributions

Currently distributions are made every six months.

Minimum investment/disinvestment

The manager has discretion to accept initial investment below the minimum initial investments figure of £1 million. There is no minimum level of further investment by existing investors.

Creation, transfer and realisation of units

The trust is open to subscriptions on a quarterly basis, with applications to be received by the last business day of the month. The manager will attempt, where possible, the matching of buying and selling orders.

Taxation

Capital Gains Tax

The trust is not subject to UK capital gains tax

Income Tax

Distributions of income are made gross with no deduction of income tax

Stamp duty reserve tax

No stamp duty is payable on the transfer of existing units.

Charges

The annual management fee is equivalent to 0.25% of the gross asset value of the portfolio. This includes the fee payable to the investment manager and the property advisor, but excludes fees payable to the Auditors, Trustee and Valuers, estimated to total £53,000 pa.
